EC melamine

EC Melamine items represent a concentrated movement towards a more environmentally sensitive option. Blending eco-friendly plant based fiber & durable melamine compound these trays offers a durable yet natural, earthen look.

SORRENTO™ CM

A Delfin signature line, Sorrento embodies a free flowing and well balanced pattern throughout every Composite Melamine piece.

pacific rim CM

Clean, simple, and fun, Pacific Rim is one of our largest lines with a wide array of sizes and shapes. Proprietary composite melamine construction, fitted with permanent non-marking white feet, most items pedestal ready.

metro™ CM

Clean and elegant, Metro is a contemporary line with complementing bold edges and graceful curves. Simple is beautiful. Metro is beautiful.

cafe CM

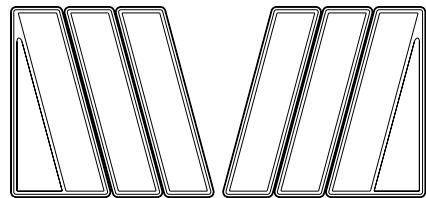

Evoking the quaint elegance of a Parisian bakery, Café is a graceful addition to any merchandising display.

CHEVRON TRAYS// ACR

Alternative to utilitarian dull fiberglass items, we have added a new twist by creating a Chevron System. The Chevron System consists of four trays

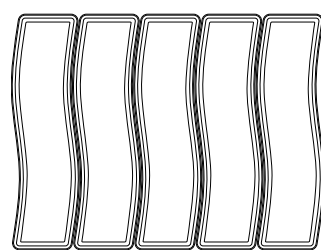

that can be combined for a multitude of different sets.

WAVE MARKET TRAY/// ACR

An elegant and simple system designed for creating modern merchandising solutions. Easily

replace fiberglass items with wave trays or combine them with our system for a unique and contemporary look

market trays and bowls CM

The modern industry alternative to drab fiberglass items, Delfin Market enhances the look of your meat, seafood, or shaved deli section with a more contemporary look.

case-link™

...contour your case

Simply put, Case-Link is the most versatile case foundation system ever created.

It flows and flexes, swerves and curves, cascades and contours to virtually every curved or straight glass merchandising case made. The unique pod & stem system easily adjusts to your schematics by "linking", creating a multi-layered merchandising foundation to meet your specific needs. Patent Pending.

list price each: \$13.02
SPEC

HOW CASE-LINK WORKS:

1 Choose a starting point on the back row of your case and assemble a single pod according to the desired height of that point. Simply combine a base and extensions to get the height you want. We suggest you go with the highest landscaping point first.

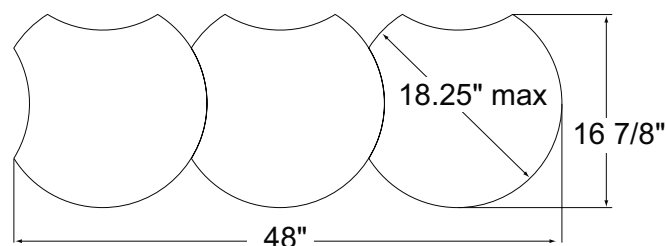

2 Continue assembling pods and configure the back row by "linking" them together making sure two of the pod points are as close to the back of the case as possible. Linking works the same on straight or curved glass merchandising cases.

pod points

3 Slide the next row beneath the back row creating as many cascading elevation changes as you desire. Let your creative vision come to life.

patent pending

slant risers ABS

Unsure of just how much angle you need for your Market style trays?

Try our simple do it yourself adjustable risers. These durable ABS slant risers are easy to adjust. Front lip keeps trays from sliding out of place.
